Blood Atonement has all the ingredients of a good murder mystery plus a fascinating account of the use of DNA and genealogical research to solve the case. There are two main characters, Detective Chief Inspector Grant Foster, an honest, hardworking police officer who is recovering from serious injury and Nigel Barnes, a talented professional genealogist, who, as yet, is unable to trace his own birth parents.

Genealogist Nigel Barnes's second case leads him into the dark heart of the Mormon church and a gruesome, century-old secret. Detective Chief Inspector Grant Foster is called to a homicide at the home of a single mother in Queens Park, London. Her throat has been cut from ear to ear and her body dumped in the garden. Her daughter and only child, Naomi, who has just turned fourteen that day, is missing. As the hours tick by, the feeling grows among Foster's colleagues that this is most likely becoming a double-murder inquiry. With nothing in the present to indicate a motive, Foster decides to delve into the dead woman's past only to find out she does not have one. He calls on genealogist Nigel Barnes. The trail takes Barnes back to late Victorian England where it abruptly ends with a young couple who came from the United States to England. Nigel's quest takes him on trip through the violent history of the Mormon church as he and Foster race to solve a shameful, long-kept secret that is about to have bloody repercussions in the present, and for which someone is seeking vengeance. Dan Waddell delivers another gritty, suspenseful mystery that will keep readers guessing until the last page.

THE ATONEMENT DECEPTION, explores the Christian theological fiction that belief in Jesus is the only way to receive divine forgiveness for one’s sins. Biblically, both Jews and gentiles can receive forgiveness of sins through sincere repentant confessionalary prayer directed to the God of Israel. This is true at all times and in all places. There has never been a need for the so-called intercession role Jesus is supposed to play in attaining atonement. The facts speak for themselves. There is no truth to the Christian contention that Jesus died for our sins and salvation is only through Jesus. Jesus’ death does not bring atonement from sin nor is it in any way a fulfillment of biblical prophecy.

Winter, 670 AD. King Colgú has invited the leading nobles and chieftains of his kingdom to a feast day. Fidelma and her companion Eadulf are finally home for an extended stay, and have promised their son, Alchú, that they'll be able to spend some time together after months of being on the road, investigating crimes. Fidelma and Eadulf are enjoying the feast when it is interrupted by the entrance of a religieux, who claims he has an important message for the King. He approaches the throne and shouts 'Remember Liamuin!' and then stabs King Colgú. The assassin is slain, but does enough damage to take out Colgú's bodyguard, and to put the king himself on the verge of death. As King Colgú lies in recovery, Fidelma, Eadulf, and bodyguard Gormán are tasked with discovering who is behind the assassination attempt, and who Liamuin is. They must journey into the territory of their arch-enemies, the Ui Fidgente, to uncover the secrets in the Abbey of Mungairit, and then venture into the threatening mountain territory ruled by a godless tyrant. Danger and violence are their constant companions until the final devastating revelation. Atonement of Blood is a mystery of Ancient Ireland from Peter Tremayne.

When the naked, mutilated body of a man is found in a Notting Hill graveyard and the police investigation led by Detective Chief Inspector Grant Foster and his colleague Detective Superintendent Heather Jenkins yields few results, a closer look at the corpse reveals that what looked at first glance like superficial knife wounds on the victim's chest is actually a string of carved letters and numbers, an index number referring to a file in city archives containing birth and death certificates and marriage licenses. Family historian Nigel Barnes is put on the case. As one after another victim is found in various locations all over London, each with a different mutilation but the same index number carved into their skin, Barnes and the police work frantically to figure out how the corresponding files are connected. With no clues to be found in the present, Barnes must now search the archives of the past to solve the mystery behind a string of 100-year-old murders. Only then will it be possible to stop the present series of gruesome killings, but will they be able to do so before the killer ensnares his next victim? Barnes, Foster, and Jenkins enter a race against time - and before the end of the investigation, one of them will get much too close for comfort.
