Dow Americas Technical Manual

A presentation (entitled Stable and Easily Processable Optical Silicones for Low-Loss Polymer Waveguides) given here by Brandon Swatowski, application engineer for Dow Corning Electronics Solutions, reported that fabrication of full waveguide builds can be completed in less than 45 minutes, and enable a high degree of process flexibility.

IBM Research - Zurich | News

Engineering measures : Processing may form hazardous compounds (see section 10). Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

DOW CORNING(R) 732 MULTI -PURPOSE SEALANT CLEAR

Dow Corning was formally established in 1943 as a joint venture between the American conglomerates Dow Chemical and Corning Glass to explore the potential of silicone and was a manufacturer of products for use by the U.S. military in World War II. The company began operating its first plant, in Midland, MI, in 1945.
