differential method. The method, originally proposed by Florack and Nielsen

[Florack1998a] is known as the Multiscale Optic Flow Constrain Equation (MOFCE).

This is a scale space version of the well known computer vision implementation of the optic flow constraint equation, as originally

scale space approach to  
the local measurement  
of optic flow, as we may  
expect the visual front

James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your

system. Bad habits  
repeat themselves again  
and again not because  
you don't want to  
change, but because you  
have the wrong system  
for change. You do not  
rise to the level of your  
goals. You fall to the  
level of your systems.  
Here, you'll get a  
proven system that can  
take you to new heights.  
Clear is known for his
