INFANT/TODDLER ENVIRONMENT RATING SCALE® - Revised Edition ...

Infant/Toddler Environment Rating Scale®, Third Edition (ITERS-3) The Third Edition of the ITERS is a major revision that introduces innovations in both the content and the administration of the scale, while still retaining continuity of the two primary characteristics of the ITERS—its global definition of quality and its reliance on observation as the primary source of information on which to base assessment of classroom quality.

Infant/Toddler Environment Rating Scale®, Third Edition ...

INFANT/TODDLER ENVIRONMENT RATING SCALE (ITERS-R) For additional guidance on administering the ITERS, visit PA Keys at www.pakeys.org. The ITERS is a classroom assessment tool designed to measure the quality of group programs for infants and toddlers (birth to age 3) by collecting data through classroom observations and a staff interview. The assessment is a 39-item rating scale organized into seven environmental subscales.

criteria to meet on the Infant- Toddler Environment Rating Scale-Revised (ITERS-R) is taking infants and toddlers outdoors to play for an hour every day. We often hear from providers that “ parents don ’ t want their infant outdoors because they ’ ll get sick ” or that “ there ’ s no time to take young children outside when

Importance of taking infants-toddlers outdoors

The infant and toddler child care environment is “ ... never determined once and for all. Planning, arranging, evaluating, and rearranging is an ongoing process as caregivers strive for quality and find what works best for them and for the children as they grow and change ” (Gonzalez-Mena & Eyer, 2012, p. 285).

Preparing the Environment - Infant Toddler Resource Guide

The Infant/Toddler Environment Rating Scale®, 3rd ed. -- A thorough revision of the ITERS-R™, designed to assess group programs for children from birth to 3 years of age. Total scale consists of 33 items.

Environment Rating Scales® | Environment Rating Scales®

The Infant/Toddler Environment Rating Scale-Revised Edition (ITERS-R™) is a thorough revision of the original Infant/Toddler Environment Rating Scale (ITERS, 1990). It is one of a series of four scales that share the same format and scoring system but vary considerably in requirements, because each scale assesses a different age group and/or type of child development setting.

Development of the ITERS-R™ | Environment Rating Scales®

There are four environmental rating scales, each designed for a different segment of the early childhood field. Our team uses three of the scales: Early Childhood Environment Rating Scale Revised Edition (ECERS-R): This scale is designed to assess the quality of preschool environments located in center child care settings. Infant and Toddler Environment Rating Scale Revised Edition (ITERS-R): This scale is designed to assess the quality of care environments serving children birth to 30 ...

Infant/Toddler Environment Rating Scale

Designed for use in center-based child care programs for infants and toddlers up to 30 months of age, the Infant/Toddler Environment Rating Scale®, ITERS – R, can be used by program directors for supervision and program improvement, by teaching staff for self assessment, by agency staff for monitoring, and in teacher training programs. The established reliability and validity of the scale make it particularly useful for research and program evaluation.

Infant/Toddler Environment Rating Scale (ITERS-R): Revised ...

How to do the scoring for the scale. I cried about this. There is no need. It's super simple. This was for my EDU-284 class.

Scoring the Infant / Toddler Environment Rating Scale ...

This is the first of a seven-part series on the Infant/Toddler Environment Rating Scale-Third Edition (ITERS-3). This session is designed to provide an overview of the key differences between the Infant/Toddler Environment Rating Scale-Revised (ITERS-R) and the ITERS-3.

Building on extensive feedback from the field as well as vigorous new research on how best to support infant and toddler development and learning, the authors have revised and updated the widely used Infant/Toddler Environment Rating Scale. ITERS-3 is the next-generation assessment tool for use in center-based child care programs for infants and toddlers up to 36 months of age. ITERS-3 focuses on the full range of needs of infants and toddlers and provides a framework for improving program quality. Further, the scale assesses both environmental provisions and teacher-child interactions that affect the broad developmental milestones of infants and toddlers, including: language, cognitive, social-emotional and physical development, as well as concern for health and safety. ITERS-3 is appropriate for state- and district-wide QRIS and continuous quality improvement, program evaluation by directors and supervisors, teacher self-evaluation, monitoring by agency staff, and teacher training programs. The established reliability and validity of the scale make it particularly useful for research and program evaluation. While the approach to assessing quality and the scoring process remain the same for the new ITERS-3, users will find the following improvements informed by extensive use of the ITERS in the field and by the most recent research: Enhanced focus on interactions and the role of the teacher. Six new language and literacy items. A new item on beginning math experiences. Expanded age range to include children from birth to 36 months. A new approach to scoring based solely on observation of ongoing classroom activity (3-hour time sample). The elimination of the parents/staff subscale and teacher interviews, freeing up time for observing more actual classroom practice. Improved indicator scaling, providing more precise and useful scores for use in professional development and self-improvement. Reduced emphasis on the number of materials, along with greater emphasis on how materials are used to encourage learning. Suitable for use in inclusive and culturally diverse programs, ITERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Books Activities Interaction Program Structure

Featuring a new spiral binding, the updated ITERS-R offers more practical assistance in the form of additional notes for clarification and an Expanded Score Sheet, which incorporates notes and tables to assist in scoring. However, the items and indicators remain the same as in the original ITERS-R. Designed for use in center-based child care programs for infants and toddlers up to 30 months of age, the ITERS-R can be used by program directors for supervision and program improvement, by teaching staff for self-assessment, by agency staff for monitoring, and in teacher training programs. The established reliability and validity of the scale make it particularly useful for research and program evaluation.

The ITERS-R is a thorough revision of the widely used program quality assessment instrument, The Infant/Toddler Environment Rating Scale. Designed for use in center-based child care programs for infants and toddlers up to 30 months of age, the ITERS-R can be used by program directors for supervision and program improvement, by teaching staff for self-assessment, by agency staff for monitoring, and in teacher training programs. The established reliability and validity of the scale make it particularly useful for research and program evaluation. Book jacket.

This resource provides step by step instruction on how to design a quality day care environment. It should be used side by side with the ECERS-R, the scale used to develop and quantify quality standards in Canada, the USA, and abroad. It includes the How, What and Why for Each indicator, seven sub-scale items, step-by-step instructions, and over 700 colour photos. The usage of this book can ensure accurate ECERS-R assessment by: early childhood practitioners, to improve classroom quality; technical staff, wanting to provide guidance to practitioners; licensing staff, who need to evaluate the quality of a program; and researchers, who need to use the scale correctly and reliably. The format is organized to match the format of the assessment, by subscale, item and indicator. They provide clear, print explanations of how each indicator within each item is to be interpreted.

The long-anticipated new version of the internationally recognized Early Childhood Environment Rating Scale®, ECERS-3, focuses on the full range of needs of preschool- and kindergarten-aged children. This widely used, comprehensive assessment tool measures both environmental provisions and teacher-child interactions that affect the broad developmental needs of young children, including: Cognitive Social-emotional Physical Health and safety ECERS-3 also includes additional Items assessing developmentally appropriate literacy and math activities. Designed for preschool, kindergarten, and child care classrooms serving children 3 through 5 years of age, ECERS-3: Provides a smooth transition for those already using ECERS-R. Emphasizes the role of the teacher in creating an environment conducive to developmental gains. Is designed to predict child outcomes more accurately and with greater precision. Provides a stronger method of distinguishing between good and truly excellent programs. Offers a complete training program with ongoing support available at the Environment Rating Scales Institute (ERSI) website (www.ersi.info). ECERS-3 is appropriate for state and district-wide QRIS and continuous improvement; program evaluation by directors and supervisors; teacher self-evaluation; monitoring by agency staff; and teacher education. The established reliability and long term evidence of validity of the ERS family of instruments make this new version of ECERS particularly useful for RTTT-ELC accountability and research. Suitable for use in inclusive and culturally diverse programs, ECERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Literacy Learning Activities Interaction Program Structure

FDCRS consists of 32 items, organized under six major headings: Space and Furnishings for Care and Learning -- Basic Care -- Language and Reasoning -- Learning Activities -- Social Development -- Adult Needs. Eight additional items are included for rating a day care home's provisions for special-needs children. Each book contains one score sheet. Packages of 30 score sheets can be ordered separately.

What are the components of high-quality after-school care for children ages 5 – 12? How can we evaluate these programs? These are the challenges facing caregivers, schools, agencies, and parents as after-school programs proliferate. The School-Age Care Environment Rating Scale®, Updated Edition provides an easy-to-use resource for defining and assessing the quality of both public and private programs caring for school-age children during out-of-school time. This updated, spiral-bound edition is re-formatted so that each Item appears on its own page, along with Notes for Clarification and Questions. The expanded Scoresheet can be copied from the book or downloaded from the TC Press website: www.tcpres.com. Selected revised Items make scoring more accurate and informative. The SACERS Updated Edition consists of 47 items, organized under 7 categories: Space and Furnishings Health and Safety Activities Interactions Program Structure Staff Development Special Needs Supplementary Items The SACERS Updated Edition is designed to be comprehensive in coverage and easy to use. Instructions for using the scale provide options for self-assessment in addition to formal assessments. Who should use the SACERS? Program directors Organizations, states, and agencies doing QRIS and continuous improvement evaluations School districts Program funders School principals Community-based out-of-school programs States receiving Race to the Top funds Teachers Teacher educators Researchers

This new book in the ERS® Family presents best practices for coaches to use in their work with teachers and administrators to help them improve classrooms and teaching practices. The author includes guidance and activities for facilitating group meetings, professional learning communities, and staff workshops. Appropriate for use with ECERS-3 and ECERS-R.

The 35 items in the ITERS are divided into seven categories: Furnishings and Display for Children -- Personal Care Routines -- Listening and Talking -- Learning Activities -- Interactions -- Program Structure -- Adult Needs.
