The Sansui AU-101 incorporates many of the state of the art features of the more powerful AU-555A, including an all silicon solid state design, professional arrangement of controls and a satin black control panel. Like all other AU series amplifiers, the AU-101's tonal quality has been perfected and proved not only by precision electronic measuring instruments, but also by repeated listening tests in a wide variety of environments.

In 1972, Sansui introduced the integrated amplifier AU-9500 along with less expensive models AU-6500, AU-7500, and AU-8500. These amplifiers were well built, and very heavy with massive power transformers and heat syncs. With the distinguished look of the front panel, it was simply called, "the Black Face."
