Volition or will is the cognitive process by which an individual decides on and commits to a particular course of action. It is defined as purposive striving and is one of the primary human psychological functions. Others include affect, motivation, and cognition.

Online Library Volition And Personality

Volitional processes can be applied consciously or they can be automatized as habits over time. Most modern conceptions of volition address it as a process of conscious action control which becomes automatized.

Volition (psychology) - Wikipedia

Volition and personality : action versus state orientation ... The total personality of man is operative in each act of thinking, willing, and feeling. The one cannot be considered without the other, for man is a unity, as is God, in whose image he was

An emerging body of research has begun to examine volitional personality

Online Library Volition And Personality

change—people's desires and attempts to change their own personality traits. Studies have found that the vast majority of people want to change aspects of their personalities—usually in order to attain an external goal (e.g., wanting to increase in extraversion in order to achieve more satisfying social relationships).
